

Go Home... Fuzzy's full-featured, fact-filled, fantastic, fun, pun-packed program (I ran out of "f's"). This 12 month DVD series contains **everything** Fuzzy knows about senior portrait lighting. Plus his latest and greatest senior slide shows. If we charged what it's really worth... *you couldn't afford it!* **A STEAL AT ONLY... \$50 PER MONTH**

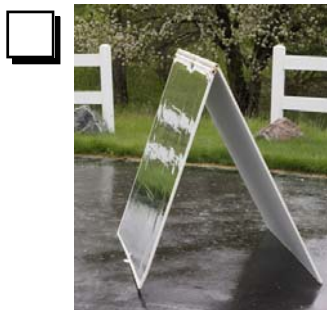

Kustom Kids... OK, so you're not into high school seniors. Have we got the thing for you (that's not a question)! This 2 DVD set shows what Fuzzy and his slave wife, Shirley, do to little brats at their parent's homes. We SHOOT them! Lighting, location ideas, Photoshop, and slide shows of kids... it's all there! **DIRT CHEAP AT... \$250**

(Plus shipping)

Fuzzy Logic... The latest, greatest, bestest, equipment diagrams (including the solar system's super reflector... the Fuzzyflector), plus information, ideas, and paperwork to run a portrait business, hard facts and opinions on the state of our craft. If it can be written, and it's something we do... it's in there! **A GIVE-AWAY AT... \$150**

(Plus shipping)

The "**FuzzyFlector**" is known as the best reflector ever, and one that you can build. But not everyone wants to hunt down all the parts, nor has the mechanical abilities to build it from scratch. We can save you that hassle with a kit that even my wife could assemble! All the parts are included, such as the Mylar mirror, gaffer's tape, PVC pipes, shelf paper, silver spray paint, spray glue, and other hardware... **except the panel.** What, no panel you say? Well, it would cost \$100 just to ship that silly 4x4 panel. So head to your local home building supply store and pick one up... then add our parts and prepare to be amazed! **FUZZYFLECTOR... \$95**

(Plus shipping)

PLEASE PRINT LEGIBLY the way you did BC (Before Computers), as if your 3rd grade teacher were grading it!
